## FLOW DIAGRAM

HOSTEL  
MODULE

# INTRODUCTION

- This is a MIS (Management Information System) Project.
- It is a hostel module for NITJSR MIS Project.
- This Project contains the hostel room allocation and about each hostels in detail.
- This helps to reduce a lot of paper work and provides more efficient way for hostel allotment.
- Currently the process involves the student filling form and allocating the rooms by their respective admins.

# Home Page

- We have a home page in which we have three options for performing actions such that we have apply section where we can proceed for hostel allocation. If we scroll down then we get a tab for hostels where we can get the details about each hostels.
- In the footer section we can connect with social media sites of NITJSR and we can get the address as well.

- When we get logged in then we get a form which includes the basic details about the student.
- These details go into the database where we can perform actions like room allocation and deallocation by admin.
- After filling the form we can check the status and we can get logout from here.

## SERVICES

This hostel has a total capacity of 180 students. It offers the following amenities:

- Mess (Breakfast, Lunch, Refreshment, Dinner)
- Wi-Fi internet facility
- Guest Room
- Gymnasium
- Common room : Television with DTH facility
- Outdoor games facility
- Indoor games like carom, T.T.tables etc.

- For a particular hostel if we visit at these pages then we can get all the required details for that hostel.
- We can get the information like what type of services that hostel is providing.
- We have given a menu-bar at the right side of the page from where we can check the details as well.
- We have the same things for the remaining hostels.

Thank You
